

Mattress Cleaner

Item #: 403422

PROBLEM : You wash your sheets and mattress pad, but what about the mattress itself? Mattresses, upholstery and other non-washable soft surfaces can harbor organic waste like dead skin cells and body oils—even pet dander! Not a pleasant thought, especially for allergy sufferers.

SOLUTION : Let Mattress Cleaner help clean and freshen mattresses, upholstery, stuffed toys and even pet bedding as it also helps calm your allergies. This biodegradable formula is completely safe and non-toxic and works quickly to eliminate sources of organic waste and odors.

Description:

Not just for mattresses, our Mattress Cleaner is a unique, enzyme-based formula designed to help remove organic material and provide a deep cleaning of body oils, pet dander and other contaminants from pillows, comforters, pet bedding, fluffy toys and fabric furniture.

350 ml / 11.8 fl. oz.

Key Features:

- Contains enzymes that clean surfaces of contaminants and soil while also reducing odor
- Biodegradable
- Non-toxic
- Free of sodium lauryl sulfate (SLS) and sodium laureth sulfate (SLES)

- Paraben-free
- Neutral pH
- Non-flammable
- Comes with handy spray nozzle
- Container is recyclable, HDPE #2.

Key Benefits:

- Cleans and freshens articles such as mattresses, sofas, cushions, curtains and any other soft surfaces
- Cleans beds, pillows, comforters, stuffed toys, upholstery, vehicle seats, children's car seats, pet beds—anywhere organic material collects
- Deep cleans soft surfaces, leaving them free of body oils, pet dander and other organic contaminants
- Removes organic smells, such as urine and perspiration
- Safe and non-toxic
- Use on cotton, canvas, polyester and rayon.
- Does not stain

How to Use:

- Shake bottle before using.
- Remove linen from mattress or pillows and spray surface lightly. Do not saturate.
- Use approximately 5 sprays for a twin mattress, 8 sprays for a double, 10 – 12 sprays for a queen-size or king-size bed, 1 – 2 for a pillow, 2 sprays for stuffed animals and 5 sprays for a fabric couch.
- Let dry 2 to 4 hours before replacing bedding.

- Treat bed once a month for optimal cleaning. Allergy sufferers may want to use more frequently.
- Not for use on nonabsorbent plastic crib mattresses or Memory Foam products.
- Do not use on silk, leather, velvet, chiffon, mohair or wool.

Demo Tips:

- Share that dust mites are one of the major indoor triggers for people with allergies and asthma, and that dust mite exposure can even cause asthma.

Did You Know?

- It's not actually the dust mites themselves that cause allergies; it's the feces they leave behind. In fact, dust mite droppings are the most common cause of dust-related allergies!
- In a 10-week life span, a female house dust mite produces approximately 2,000 fecal particles and an even larger number of partially digested, enzyme-covered dust particles, which can cause allergies. And they are on couches, pillows, mattresses, vehicles—anywhere there are skin cells for them to feed on!
