

# Peppermint Foaming Hand Wash

Item #: 403195 Refill Item #: 403196 Samples Item #: 403197

**PROBLEM:** Many hand soaps on the market contain ingredients and chemicals that just aren't good for your skin, including synthetic dyes, fragrances containing phthalates, and synthetic preservatives with parabens. They aren't natural, and they can strip your skin of moisture, leaving it feeling dry and rough.

**SOLUTION:** Our Peppermint Foaming Hand Wash is free of these unnecessary ingredients. Natural Peppermint Oil provides its invigorating scent. The luxurious foaming action is due to earth-friendly Coconut and Apple Amino Acids. And Panthenol, Allantoin and Aloe combine to provide extra moisture and soothing properties.

## Description:

Transform an everyday task into something you enjoy. The energizing Peppermint aroma of our Foaming Hand Wash awakens the senses as the rich, environmentally friendly ingredients leave your skin clean, soft, smooth and moisturized. Ideal for the bathroom as well as the kitchen.

Hand Wash: 250 ml / 8 fl. oz.

Refill: 946 ml / 32 fl. oz.

Sample: 50.2 ml / 1.7 fl. oz.

## Key Features:

- No sodium lauryl sulfate (SLS) or SLES
- No triclosan
- No parabens
- No synthetic dyes or fragrances
- No phthalates

- No PEGs
- No petroleum-derived ingredients
- Gluten-free
- Vegan
- Scented with natural Peppermint Oil
- Never tested on animals
- Absolutely no animal ingredients
- Packaging is BPA-free.
- Rich, luxurious foam

## Key Benefits:

- Moisturized, clean hands
- Environmentally low-impact formula hydrates, soothes and nourishes your skin as it thoroughly cleans without chemicals.
- Because it foams, a little goes a long way. There's less waste and the product lasts longer.
- Leaves hands remarkably clean and feeling soft and smooth
- Non-drying to the skin
- Panthenol, Allantoin and Aloe combine to create an extremely moisturizing and soothing product.
- Energizing scent revives and awakens the senses.
- Fewer chemicals are added to the environment as even the packaging is completely free from BPA and phthalates.
- Package is recyclable, HDPE #2.
- Economical refill product is available, saving you money and creating less packaging waste.

## How to Use:

- Wet hands. Dispense 1 – 2 pumps of Wash onto hands. Scrub. Rinse.
- Scrub hands and each finger, including cuticles and under nails. Rinse and dry hands thoroughly using a clean microfiber towel.
- When refilling Foam Wash dispenser with the refill, leave about 2 cm/1" of space between the Hand Wash and the top of the bottle to allow for creation of foam.

## Demo Tips:

- Place a bottle of the Peppermint Foaming Hand Wash along with Mediterranean Meditation Olive Oil Salt Scrub and in the Host's kitchen. As guests arrive, encourage them to experience the products and ask them to comment on how soft their hands feel. Offer Norwex Hand Cream as an extra moisturizing finish.
- Before the party, ask your Host if you can prep the bathroom as well. Place the Peppermint Foaming Hand Wash, a Norwex Hand Towel, Salt Scrub and Hand Cream in the bathroom and invite guests to try them all.

## COMPLEMENTARY PRODUCTS

- Hand Towel
- Timeless Relaxation Rescue Gel
- Hand Cream

### Key Ingredients:

The Foaming Hand Soap contains SAFE ingredients as measured by the Environmental Working Group. All ingredients in the formula rank a 0, 1 or 2 per EWG. Key ingredients are as follows:

- Disodium Cocoamphodiacetate (EWG ranking: 0) — Derived from Coconut Oil, this surfactant gently cleanses the hands.
- Glycerin (EWG ranking: 0)—Vegetable-based humectant that draws moisture to the skin, hydrating the hands.
- Coco-Glucoside (EWG ranking: 0)—Mild surfactant derived from the dried pulp of the Coconut fruit and sugar. Well-tolerated even by those with the most sensitive skin.
- Sodium Cocoyl Apple Amino Acids (EWG ranking: 0)—Mild surfactant derived from Apple Juice Essential Amino Acids.
- Mentha Piperita (Peppermint) Oil (EWG ranking: 1)—Commonly referred to as Peppermint, the thin, brittle leaves of this plant emit an aromatic and cooling aroma. Peppermint comprises a high percentage of natural essential oils, as well as Menthol and Tannins. It is known for its refreshing, cooling, antiseptic and anti-irritant properties.
- Aloe Barbadensis Leaf Juice (EWG ranking: 1)—Contains vitamins, minerals, enzymes and natural sugars and has a pH almost identical to that of skin (4.5 – 6). Aloe helps hydrate, soothe, nourish and protect the skin.
- Panthenol (EWG ranking: 1)—Also known as Vitamin B5, Panthenol nourishes and lends moisture to the skin.
- Allantoin (EWG ranking: 1)—A soothing anti-irritant and skin protectant that increases skin's water content.

### Did You Know?

- Foaming hand soaps are better for the environment than bar or liquid soaps. Because you use less product, less waste goes down the drain.
- When should you wash your hands? According to the Centers for Disease Control, it's important to wash your hands:
  - Before, during and after food preparation
  - Before eating
  - Before and after caring for someone who's sick
  - Before and after treating a cut or wound
  - After using the toilet
  - After changing diapers or cleaning up a child who has used the toilet
  - After blowing your nose, coughing or sneezing
  - After touching an animal, animal feed or animal waste
  - After touching garbage

[www.cdc.gov/features/handwashing](http://www.cdc.gov/features/handwashing)

- A study conducted by the American Society for Microbiology showed that overall only about 67% of people washed their hands after using the restroom. This means that about a third of the population does not!

[www.abcnews.go.com/Health/story?id=117956&page=1#.UcMXJZVjDHg](http://www.abcnews.go.com/Health/story?id=117956&page=1#.UcMXJZVjDHg)

- Try to avoid touching your face with your hands. Here's why: According to WebMD.com, about 80% of infectious diseases are transmitted by touch. When you unknowingly touch your face, the germs can enter through your eyes, nose and mouth. And those germs can also be transmitted to others through shaking hands (direct transmission) or handling items that others then touch (indirect transmission).
