

Window Cloth

Item #: 305002

PROBLEM : Getting windows clean quickly isn't easy. In addition, many of today's popular glass and window cleaners contain harmful chemicals, like butyl cellosolve and ammonia. And using paper towels to clean just adds to the problem of overloaded landfills and deforestation.

SOLUTION : The Window Cloth gets windows and other glass and shiny surfaces clean and streak-free with just water. No harmful chemicals are left behind to smear or distort light, and no paper towels are needed, which means less landfill waste and less paper dust in your home.

TOP SELLER

Description:

Our hard-working Window Cloth gets windows, mirrors, shower doors, glass tables, crystal, granite countertops, jewelry, brushed and stainless steel, chrome, knickknacks, patio tables and shiny surfaces sparkling clean with only water. BacLock™* in the cloth—our micro silver antibacterial agent—goes to work to self-purify and inhibit bacterial odors, mold and mildew growth within the cloth.

Size: 45cm x 45cm / 17.72" x 17.72"

Key Features:

- Constructed of tightly woven Norwex Microfiber containing our exclusive BacLock* agent
- Traps dust and grime in the cloth and leaves surfaces cleaner, so you won't have to clean as often
- Can be folded to create multiple surfaces for nonstop cleaning

Key Benefits:

- Cut cleaning time in half and save money by using only water

- No need for harsh chemicals that can harm your family's health
- Save money and protect the environment by eliminating the need for paper towels
- Eliminates residual "chemical muck" left behind by typical cotton cloths and harsh cleaning products
- Experience less paper dust in your home as paper towels are eliminated
- BacLock*, the micro silver agent in the cloth, goes to work with self-purification properties against mold, fungi and bacterial odor within 24 hours so that it is ready to use again.
- Dries quickly so it's ready to use when you are.

How to Use:

- To clean glass, lightly mist the surface with water and polish with a dry Window Cloth.
- For heavily soiled surfaces, first clean with a moist EnviroCloth, then finish with the Window Cloth, wiping in the same direction as the grain.
- Slightly dirty microfiber can be washed with Norwex Dishwashing Liquid under warm running water and used again before laundering.
- Cloths that have been used heavily should be laundered using Norwex Ultra Power Plus™, which contains no fillers, after each use.
- Do not use bleach, fabric softeners or dryer sheets when laundering.
- Rinse thoroughly after washing and air or machine dry.
- Do not use on anti-glare coated surfaces.

Demo Tips:

- Use the Window Cloth alone or with a Spray Bottle filled with water. Demo in bright sunlight on a dusty mirror or window, bringing the glass to a high shine.

Did You Know?

- Butyl cellosolve is a chemical commonly found in glass cleaners. Readily absorbed through the skin, overexposure can irritate mucous membranes and may cause liver and kidney damage.

www.osha.gov/dts/sltc/methods/organic/org083/org083.html

- According to the Environmental Working Group, there is strong evidence that ammonia is a human immune and respiratory toxicant or allergen.
