

Silicone, Cup and Bakeware Lids

Item #s: Silicone Lids Set of 2 (one blue, one green)–358020, Silicone Cup Lids Set of 4 (two blue, two green)–358021, Silicone Bakeware Lid, rectangular (red)–358023, Silicone Bakeware Lid, square (red)–358022

PROBLEM : Keeping your food fresh and your beverages insulated shouldn't have to mean using plastic wrap, aluminum foil or Styrofoam® containers, which are a struggle to use, not airtight and often wind up in the landfill after only one use.

SOLUTION : Our Silicone Lids are perfect for keeping food and drinks hot and cold as well as keeping food fresher longer, without having to resort to environmentally unfriendly wraps or containers. And they are reusable, which is great for your budget.

SILICONE BAKEWARE LIDS

SILICONE LIDS

Description:

Plastic and foil food wraps have a bad rap! They can be a struggle to use, they can leach harmful chemicals into your food, and they end up in the landfills. These colorful lids create an airtight seal on any smooth-rimmed bowl, casserole, cup or glass to keep food and liquids fresh when storing. The heat-resistant, food-safe silicone also allows for quick cooking, steaming and reheating in the oven or microwave. Great for parties and picnics, too.

Silicone Lids (set of 2):

- Blue lid - 26 cm / 10.2" diameter
- Green lid - 20 cm / 7.9" diameter

Silicone Cup Lids (set of 4): 12 cm / 4.7" diameter

Silicone Bakeware Lids (sold separately):

- Rectangular lid - 24 cm x 35 cm / 10" x 14"
- Square lid - 23 cm x 23 cm / 9" x 9"

Key Features:

- Creates an airtight seal on smooth-rimmed surfaces
- Made of 100% food-grade silicone
- BPA-free
- Lightweight
- Recyclable

Key Benefits:

- Keeps food fresh and beverages insulated longer
- Helps reduce environmental waste from plastic wrap and aluminum foil
- Safe; won't leach chemicals into food
- Reusable, so they save you money
- Safe to use in refrigerators and microwaves, and oven safe to 230° C / 425° F
- Won't hold food odors

How to Use:

- Use to keep food fresh and beverages insulated in any stainless steel, glass, plastic or ceramic container with a smooth rim.
- Dishwasher safe or hand wash. Use Norwex Super Jet Dishwasher Detergent or Norwex Dishwashing Liquid.
- Do not wash with abrasive products.
- Do not carry bowls or containers by the lid handle.
- Do not use directly over a flame or near oven surfaces.
- Do not cut with sharp cutting utensils.
- Do not use to cover pots containing boiling foods or liquids.
- Highly acidic foods such as tomato-based pasta sauce may stain the lids. Please use caution.

Demo Tips:

- Ask your Host if you can demo the lids on a couple of her smooth-rimmed bowls or glasses. Show how tight the seal is by attempting to lift the container by the lid's handle. *(Caution guests never to carry a container using the lid.)*
- Demonstrate that, even though the lids provide an airtight seal, it is easy to remove them using the small tab. Simply lift up and the lid comes off easily.

Did You Know?

- Silicone rubber does not react with food, liquids and most chemicals and does not offgas hazardous fumes over its life or while in use.
- According to the Environmental Protection Agency, each year the U.S. consumes over 380 billion plastic bags, sacks and wraps.
- Every piece of plastic wrap ever used since its invention is still in existence, most of it in our landfills.
