

# Pet to Dry

Item #'s: Yellow Tiger-309014, Pink Pig-309015

**PROBLEM :** Do you feel like a broken record always asking your kids, "Did you wash your hands?" It can be a constant struggle. Why do kids have such an aversion to washing their hands? You may never know the answer, but . . .

**SOLUTION :** You'll never ask that question again when you have the Norwex Pet to Dry hand towels hanging in your bathroom or kitchen. Kids will love the cute animal motifs and the softness of the chenille microfiber. And you will love the antibacterial properties of our exclusive BacLock™\* technology.

## Description:

Made with our exclusive BacLock\* technology, the antibacterial properties of these chenille microfiber hand towels are perfect for the bathroom and kitchen. The rope handle makes it easy to hang anywhere, and they're great for on-the-go, too—hang one on the stroller handle and keep one handy in the car. Kids can't resist them!

11 cm x 35 cm /4.3" x 13.8"

## Key Features:

- Cute animal motifs appeal to boys and girls of all ages.
- Soft chenille microfiber dries hands quickly.
- Built-in rope handle makes it easy to hang or tie anywhere—doorknobs, towel racks or stroller handles.
- Includes BacLock\* technology
- Dries quickly so it's ready to use again

## Key Benefits:

- Helps instill good habits by making hand-washing fun for children
- The BacLock\* in the cloth—our micro silver antibacterial agent—goes to work to self-purify and inhibit odors from bacteria, mold and mildew growth within 24 hours so that it is ready to use again.
- Machine washable

## How to Use:

- Hang on a peg, hook or doorknob.
- Can be tied to a stroller handle.
- Not to be used as a toy.

## Demo Tips:

- Ask your Host if you can hang one in the kitchen or bathroom to display during the party, or hang one in your own product display.
- Pass one around for guests to feel how soft it is.

## Did You Know?

- Many diseases and health conditions are spread by not washing hands. Regular hand washing is one of the best ways to prevent germs from spreading and avoid getting sick.
- Teaching children to wash their hands at an early age leads to the development of lifelong good habits.
- According to a study conducted by Michigan State University, 95% of people fail to wash their hands long enough to kill harmful bacteria after using the bathroom. Only two out of three people use soap.
- It is recommended that you wash your hands vigorously using soap and water for 15 to 20 seconds, or the time it takes to sing or hum the "Happy Birthday" song twice.

1-year warranty

*\*Contains BacLock™, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit odor from bacteria, mold and/or mildew growth within the product.*
