

# Bathroom Scrub Mitt

Item #'s: Pink-308031, Grey-308033

**PROBLEM :** Soap scum, mineral stains and grime can build up on your bathroom tub, tile and glass, leaving them unsightly and preventing your bathroom from looking its sparkling best. Using chemicals to get your bathroom “clean” is not only harmful to the environment, it can also impact your health and it’s hard on your budget.

**SOLUTION :** Our heavy-duty Bathroom Scrub Mitt quickly removes stubborn dirt and grime on tiles, sinks, tubs, showers and more—without harsh chemicals that can find their way into waterways. You’ll have a sparkling clean bathroom you can feel good about, knowing that no harmful chemicals will impact the environment, your family’s health or your budget!

## Description:

Microfiber on one side and scrub mesh on the other. This two-in-one mitt easily removes the most resistant dirt and grime. Sponge liner adds extra absorbency.

17 cm x 23 cm / 9.06" x 6.5"

## Key Features:

- Unique design provides one side for scrubbing and one side for wiping.
- Scrubbing mesh tackles stubborn soap scum buildup without scratching.
- Extra-long microfiber quickly wipes surface areas clean, drawing particles of dirt and grime up into the cloth.
- Open spaces in the microfiber created by the splitting process allow the mitt to lift away maximum dirt and grime.
- Can be used alone or with other Norwex products, such as Cleaning Paste, Descaler and Blue Diamond All-in-One Bathroom Cleaner
- Handy hang loop for convenient drying and storage

## Key Benefits:

- Safely removes dirt and grime, including soap scum and hard water deposits
- Gets tubs, shower stalls, glass doors, countertops and toilets sparkling clean
- Saves money by eliminating expensive cleaning products
- Protects the environment by eliminating harsh chemicals
- Because soap scum, dirt and grime are trapped in the mitt rather than spread around on the surface, like with traditional sponges, bathroom surfaces are cleaner, longer, so you won’t have to clean as often.
- BacLock™, the micro silver agent in the cloth, goes to work with self-purification properties against mold, fungi and bacterial odor within 24 hours so that it is ready to use again.

## How to Use:

- Simply wet to wash and scrub all surfaces. Use both sides: the rough mesh side for scrubbing and the soft microfiber side for wiping.
- Slightly dirty microfiber can be washed with Norwex Dishwashing Liquid under warm running water and used again before laundering.
- Cloths that have been used heavily should be laundered using Norwex Ultra Power Plus™, which contains no fillers, after each each use.

- Do not use bleach, fabric softeners or dryer sheets.
- Rinse thoroughly after washing and air or machine dry.

## Demo Tips:

- Ask your Host to have a messy soap dish available. Use the Bathroom Scrub Mitt to remove the caked-on soap using only water, pointing out how the scrubby side removes stubborn grime, and the fluffy side is great for wiping and drying.
- Let guests know that Descaler and the Bathroom Scrub Mitt are great for removing hard water and rust stains from shower doors. Just spray on Descaler, wait five minutes and then wipe clean with a dampened Scrub Mitt. Shower doors are streak-free and shiny!

## Did You Know?

- Kids enjoy using the Bathroom Scrub Mitt, too. The fun design and lush fibers make cleaning without chemicals fun!
- The Bathroom Scrub Mitt works great on stained grout around toilets.

All Norwex Microfiber products carry a two-year warranty. Please visit [www.norwex.com](http://www.norwex.com) for complete details.

\*Contains BacLock™, an antibacterial agent for self-cleaning purposes only. The agent is solely designed to inhibit odor from bacteria, mold and/or mildew growth within the product.
