

Blue Diamond All-in-One Bathroom Cleaner *TOP SELLER*

Item #: 403461

PROBLEM : Do you have a dozen different cleaning supplies under your bathroom cabinet, crowding your limited storage space? Most of them probably contain harsh chemicals and some may not even work that well for cleaning stubborn dirt.

SOLUTION : Blue Diamond All-in-One Bathroom Cleaner is a thick, concentrated solution that safely cleans bathroom bowls and basins without corrosive fumes or dangerous muriatic acid that eats away chrome and metal fittings. Its special formulation allows for deep penetration into surfaces, eliminating odor-causing bacteria and germs as well as dissolving rust stains, hard water scales and soap scum.

Description:

Our highly concentrated formula safely cleans toilets, basins and most other hard bathroom surfaces without corrosive fumes, leaving them sparkling clean. Deep penetration allows for effective cleaning and descaling in one application, with little to no scrubbing.

350 ml / 11.8 fl. oz.

Key Features:

- Thick, ultra-concentrated gel lingers on surfaces to penetrate deeply
- Phosphate-free
- No APEs (alkyl phenol ethoxylates)
- Organic salts and citric acid replace strong corrosive acids
- Readily biodegradable
- Will not harm plumbing systems
- Fragrance-free
- Container is recyclable, HDPE #2.

Key Benefits:

- Thick solution clings to all vertical surfaces for a fast and scrub-free clean.
- Removes hard water deposits, rust, soap scum, urine salts and more
- Cleans and descales in one application
- Quickly brings porcelain, tubs, tile and floors to a sparkling shine, with minimal effort
- Effectively removes dirt and stains without harsh chemicals, leaving surfaces clean and residue-free
- One product does it all, saving you money and valuable under-the-counter storage space!

How to Use:

- Toilets: Squirt a light stream over the inside bowl area, spreading around the bowl and under the rim with the Ergonomic Toilet Brush. Allow to work 3 to 5 minutes then flush clean. Wipe bowl exterior and seat with a Norwex cloth.
- Baths, basins, shower stalls: Prewet surface. Apply a light stream on surface and immediately spread with a Norwex cloth. Rinse thoroughly.
- On porcelain surfaces: Dilute 1 ounce of Blue Diamond with 7 ounces of water before using and rinse immediately.
- Not for use on natural stone surfaces.
- Do not use on polished marble, aluminum, galvanized zinc, tin or magnesium surfaces. If contact occurs, rinse immediately.

Demo Tips:

- Dip half of a dull penny into small container of Blue Diamond cleaner for a few seconds and then lift it out. Guests become Customers when they see how quickly and effectively this product works!

Did You Know?

- “Scale” or limescale, also known as calcium carbonate, is the milky white substance that can collect around faucets and drains. It results from mineral deposits left by hard water, and it’s difficult to remove without using abrasives, which could damage the finish of the surface. The natural organic salts and citric acid in Blue Diamond make it just right for the job!

60-day warranty
