Item #'s: Vintage Color Three Pack (one each: taupe, latte and teal)–309044
Vibrant Color Three Pack (one each: yellow, pink and blue)–309042
Graphite (three each)–309045

PROBLEM : The skin is your body's largest organ, and it's also one of the first things people notice about you. You want products designed to not only keep it clean, but also keep you looking your fabulous best!

SOLUTION : Let our super-gentle microfiber facial and body cloths help you pamper your skin as you cleanse. Luxurious and lightweight, these microfiber cloths are extra gentle on even the most delicate skin. They're perfect for normal, dry or sensitive skin types and great for the face as well as the body.

Norwex Microfiber has the ability to remove up to 99% of bacteria from a surface when following the proper care and use instructions.

Key Benefits:

- Ultra-gentle microfiber is super soft on sensitive skin.
- Gentle on skin, yet tough on dirt
- Perfect for removing excess oils from skin, as well as daily hygiene and skin care
- Great for exfoliation, acne and blackheads
- Gently removes face paint from children's faces
- BacLock*, the micro silver agent in the cloth, goes to work with self-purification properties against the mold, fungi and bacterial odor within 24 hours so that it is ready to use again.

Care and Use:

- Wet face and cleanse with a damp Body Cloth. For dry or sensitive skin, including skin around the eye area, wipe gently with a moist cloth. For oily skin or for a deeper exfoliation, wring cloth well before using.
- Rinse under warm water and use other side of cloth to continue cleansing face or body.
- Slightly dirty microfiber can be washed with Norwex Dishwashing Liquid under warm running water and used again before laundering. Rinse thoroughly after washing and air or machine dry.
- Cloths that have been used heavily should be laundered using Norwex Ultra Power Plus™, which contains no fillers, after each use. Do not use bleach, fabric softeners or dryer sheets.

Demo Tip:

- Pass both a dry and wet Body Cloth around to party guests to demonstrate the difference in feel. Mention the cloth is extra soft when wet. Let guests know that Body Cloths that are only slightly damp provide excellent exfoliation.

Did You Know?

- Harsh soaps and cleansers can be drying to skin. They're especially problematic to those with sensitive skin. Using a soft microfiber cloth with just water can help maintain the balance of delicate skin.
- The tiny plastic microbeads in some facial cleansers are nonbiodegradable. In fact, several countries are already moving toward the ban of plastic microbeads.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.com for complete details.

*Contains BacLock, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odor, mold and/or mildew growth within the product.

BacLock.

Description:

The super-soft cloths in our Body Packs are designed to pamper both face and body, and they're available in your choice of three color palettes. The Vintage Color Three Pack coordinates with our microfiber Bath Towel colors; the Vibrant Color Three Pack complements a more brightly colored décor. Our newest Body Pack, in graphite, coordinates with our new graphite Bath and Body Towels.
