

Chenille Hand Towel

Item #: Graphite-309019

PROBLEM : Traditional hand towels that are used over and over again after washing your hands could reintroduce the same dirt and bacteria that's caught in the fabric from previous use back onto your skin!

SOLUTION : Safely dry your hands with new Chenille Hand Towel! The lush hand towel is made with the same soft chenille microfiber as our Kids Pet to Dry, and even contains the same powerful, exclusive BacLock® technology.

Norwex Microfiber has the ability to remove up to 99% of bacteria from a surface when following the proper care and use instructions.

Features and Benefits Your Customers Will Love:

- The BacLock antibacterial agent in the towel works to self-purify and inhibit odors from bacteria, mold and mildew growth within 24 hours, so that it is ready to use again.
- Built-in hanger makes it easy and convenient to hang anywhere—oven doors, towel racks or stroller handles.
- Eliminates waste from using paper towels.
- Ultra-soft on your skin.
- Dries quickly.
- Machine washable.

Caring for Microfiber:

- Slightly dirty microfiber can be washed with Norwex Dishwashing Liquid under warm running water and used again before laundering.
- Towels that have been used heavily should be laundered using Norwex Ultra Power Plus™, which contains no fillers, after each use.
- Do not use bleach, fabric softeners or dryer sheets.
- Rinse thoroughly after washing and air or machine dry.

Demo Tip:

- Ask your Host if you can hang one in the kitchen or bathroom to display during the party, or hang one in your own product display.
- Pass one around for guests to feel how soft it is.

Did You Know?

- On a daily basis, your hands come into contact with countless surfaces that harbor harmful germs and bacteria that could spread disease and infections.
- Washing your hands regularly can help you prevent illnesses and the spread of infections to others.

All Norwex Microfiber products carry a two-year warranty. Please visit www.norwex.com for complete details.

*Contains BacLock, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odor, mold and/or mildew growth within the product.
