

# Pet Mitt

Item #: Graphite-309302

**PROBLEM :** You love your pets, but cleaning up after them can be quite a chore! Excess dirt and shedding can cover your carpets, fabrics and furniture in unsightly pet hair that could lead to persistent and problematic allergies. And without a free hand to secure them properly, bath time for your pets can be a messy ordeal!

**SOLUTION :** Make bath time more convenient and enjoyable for you and your furry friends with our super-soft microfiber Pet Mitt. Try the Pet Mitt to keep your pet close to you while your other hand is free to efficiently wash and dry them. It can be used damp or dry, and is perfect for removing excess fur.

## Description:

The Pet Mitt fits comfortably on your hand to help make bath time a breeze for you and your pet. Used wet, it gently cleans your pet, lifting dirt and hair up into the extra-absorbent microfibers. Great for wiping and drying muddy paws at the door. Stitching between fingers provides extra control. Use dry to remove loose hairs.

Size: 22 x 30 cm / 8.7" x 11.8"

## Features and Benefits Your Customers Will Love:

- The BacLock® antibacterial agent in the mitt works to self-purify and inhibit odors from bacteria, mold and mildew growth within 24 hours, so that it is ready to use again.
- Thick, plush microfiber is soft and super-absorbent.
- Makes washing and drying your pets easier and less messy.
- Removes excess pet hair from your pet while washing.
- Can be used to gently lift shedding hair and dirt from your pets' coats.
- Dries quickly allowing you to re-use and clean more often than with a standard bath towel.

## Caring For Microfiber:

- Slightly dirty microfiber can be washed with Norwex Dishwashing Liquid under warm running water and used again before laundering.
- A Pet Mitt that has been used heavily should be laundered using Norwex Ultra Power Plus™, which contains no fillers. Do not use bleach, fabric softeners or dryer sheets.
- Rinse thoroughly after washing and air or machine dry.

## Demo Tips:

- Point out all of the many places in every home that the Pet Mitt works especially well in, like the bedroom, living room and on fabrics and furniture.
- Explain how the mitt is extremely effective for removing excessive pet hair that could lead to allergies and asthma.

## Did You Know?

- Pet hair is actually not an allergen, but the substances it collects are! In addition to dust and pollen, pet hair can carry dander (loose skin flakes), saliva and even urine, all of which can result in allergic reactions.

All Norwex Microfiber products carry a two-year warranty. Please visit [www.norwex.com](http://www.norwex.com) for complete details.

*\*Contains BacLock, an antibacterial agent for self-cleansing purposes only. The agent is solely designed to inhibit bacterial odor, mold and/or mildew growth within the product.*
